J. Jeffrey Varone  
Fire Chief

The West Warwick Fire Department and Emergency Management Agency would like recommend to everyone.

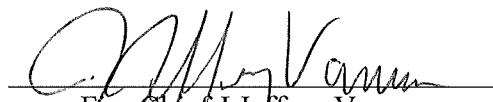

If you need medical attention, **Please call 911** right away.

Many Health Agencies across the country have reported many individuals who have had negative outcomes from delaying medical attention out of fear of going to the hospital.

The delays have led to immediate interventions like;

- TPA for stroke victims not being able to be administered.
- Increased heart damage from delay before getting treatment.
- A general increase in mortality at home.

If you need medical attention, **Please call 911** right away.
